ABOUT ME

I'm an experienced fullstack web developer engenieer with a wide knowledge on backend and frontend processes.
Open to learn new technologies and seeking to improve day to day.

EXPERIENCE

FULL STACK SOFTWARE DEVELOPER   *2022 - present*

Maintain and develop new functionalities in company's websites.

- *Created front-end and back-end components using JS and CSS Frameworks.*
- *Worked as a productive and positive team member to analize, code, test, report, and debug operations.*
- *Successfully identified, diagnosed, and fixed website problems, improving performance on sites.*
- *Worked with Asana using Kanban methodology to archive tasks on time.*

PROJECT LEADER AND DEVELOPMENT TEAM   *2021 -2021*

*Developed four online platforms for the display of the educational offer of **universities and high schools** in the state of Quintana Roo.*

- *Planned, developed, tested, and maintained the web plataforms.*
- *Focused on fullstack engineering modules on both front and back end processes.*
- *Wrote SQL statements and connections to the database.*
- *Effectively translated client requirements into application designs and systems requirements.*
- *Developed fullstack web applications using PHP, AJAX,Bootstrap and Javascript.*
- *Worked with Trello using Kanban methodology to archive tasks on time.*

KEY SKILLS AND COMPETENCIES
